

Lulu's Ice Cream Shop

Instructions:

Page 1 and 2 can be laminated and used as menus!
Pages 3 - 8 can be laminated and then cut out individually. Don't forget to add velcro dots to help the items stay together.

The money does not need to have velcro dots but it is recommended to laminate the money to prevent rips during play.

Pages 9 - 12 can be laminated and used as menu cards.

Menu cards do not have to be cut out, it is optional.

You can cut out each menu card and give your child one menu card at a time so he/she can work on them.

Lesson:

Lulu's Ice Cream is an ice cream activity that comes with menu cards to encourage young children's learning! This engaging activity goes beyond just pretend play! By following the ice cream menu's visual instructions and finding the correct ice cream flavors from the colorful menu cards, young learners develop essential skills. They'll practice following directions, one step at a time, as they look for ice cream flavors. Matching the flavors on the menu cards to the cut out ice cream scoops strengthens visual discrimination skills. Plus, they'll get a taste of early reading as they recognize and potentially sound out simple menu item names (strawberry, chocolate, etc). All this fun manipulation of laminated paper or play food scoops helps develop fine motor skills, while the freedom to also choose and create their own ice cream sparks creativity and imaginative play.

It's a win-win for learning and fun!
